INSTRUCTION BOOKLET

**PLEASE CAREFULLY READ THE SEPARATE HEALTH AND SAFETY PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT HEALTH AND SAFETY INFORMATION.**

**IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES**

### **WARNING - Seizures**

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

**Convulsions**  
**Altered vision**

**Eye or muscle twitching**  
**Involuntary movements**

**Loss of awareness**  
**Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

## **WARNING - Repetitive Motion Injuries and Eyestrain**

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

## **WARNING - Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

# WAAAA-RIO HERE!

Long time no see!

After snarfing down my usual breakfast of liver and onions, I was feeling great! I started to play this video game, but I totally stunk at it! So I did what I always do: I freaked out.

**SMASH!**

Before I knew it, my precious Game Boy Advance was sitting on the floor in pieces. My only friend! Broken!

I took it to Dr. Crygor, thinkin' he'd fix it for me. He tossed it into this thing that looked like a washing machine. (I think he called it the "Gravitator.") When the GBA popped out, it looked even more busted!

All of the buttons were gone! So that old loony bin, he says I have to spin it to play it now! But you know, it was kinda fun...

# I GOT IT!

I could smell another fortune on my hands! Or maybe it was all the garlic I ate. Anyway, I decided to pull my friends together again to make a bunch of spinning microgames! I'd be rich! What to call my master creation? How about...

## WARIOWARE: TWISTED!

# WHAT'S SPIN?

**WarioWare: Twisted!** is unlike anything else out there!

For one thing, it was developed by a genius. **ME!** Lemme tell you about it. You'd better take your socks off now, 'cause if you don't, this game'll knock 'em right off!

Actually, it was I who pioneered the spin technology with my invention: the "Gravitator."

**SPIN THE GAME BOY ADVANCE  
'ROUND AND 'ROUND TO PLAY!**

# THE CONTROLS ARE A PIECE OF CAKE!

## L BUTTON

Press **L** to speed through the scrolling messages.

You don't use **+** in this game.

## START

Press **START** to take a break!

## SPIN

Spin the GBA in the direction you want to move!

## R BUTTON

Press **R** in a menu to grab onto an icon and keep it from spinning.

Hello!  
Wario's busy,  
so I'm going to brief  
you on how to play!  
You know, my plate is  
pretty full with my pizza  
shop, music, and  
WarioWare, Inc. And he  
thinks he's busy! I'd  
better get a raise  
for this!

## A BUTTON

The only button that you use in the microgames is **A**. Easy, huh!

## B BUTTON

Press **B** to exit a menu and to skip intro movies you've already watched.

# LET'S GET STARTED!

First, insert the Game Pak in the Game Boy Advance and turn the power on. After the opening movie, the title screen will appear. When you see PRESS START, press  ! Duh!

After you turn the power on, the Gyro Sensor will calibrate, so don't move!

After you've looked at How to Play, press  one more time!

Now, you're looking at the Modes menu. Spin the GBA until the hand is over **Story** and press **A**!

It's Wario's game, so you'll start on his stage. Spin the GBA until the hand is on his ugly mug (I hope he's not reading this!), and press **A** to pick him. His stage is the Smorgasbord Sampler.

By the way, this game saves your progress automatically. Nifty, huh!

## TWISTED TIP #1

Inside the WarioWare:Twisted! Game Pak is a Gyro Sensor that detects sideways motion. This sensor lets you control the game by shaking and spinning the GBA. Twist the GBA like it's a steering wheel. Be careful to not drop it!

## TWISTED TIP #2

Take it out for a couple of spins, but don't hold the GBA and spin yourself. You'll just get dizzy and barf!

## TWISTED TIP #3

The Gyro Sensor re-centers itself with each microgame. So, after each microgame, be sure to straighten out the GBA.

# WHAT'S ON THE MENU?

WarioWare: Twisted! is packed with fresh, tasty microgames! Once you beat a character's Boss Stage, you can move on to the next!

Microgames that you have played once before are recorded in the Spindex for you to play again. Replay games you like, or practice ones that you don't quite get.

PRESS **R** TO GRAB AN ICON AND KEEP THE MENU FROM MOVING. THIS'LL MAKE IT EASIER TO MAKE YOUR SELECTION, ESPECIALLY WHEN THE MENU IS HUGE!

Once you clear a bunch of microgames, you'll start to collect souvenirs from Diamond City! What you do with them is up to you.

In Options, you can adjust the Rumble settings and watch the ending movies of the stages you've cleared. You can also erase the memory, but be careful, because if you do this, you won't be able to recover any of the data!

# SOUVENIR NOTES

I'm 18-Volt! 'Sup? I love collecting tons of stuff! Records, posters, toys, and, of course, all kinds of games. Wait, you like to collect stuff, too? It's like we're on the same wavelength! In this latest installment of WarioWare, you can win souvenirs by clearing microgames! Check it out!

Blank space for notes, featuring a circular icon on the left and horizontal lines for writing.

I want 'em all!

Me too!

# Mona

**Welcome to Mona Pizza!**

I'm working my part-time job at the pizza joint today! The manager says pizzas need to be served hot, so I brought my roller skates from home! I dunno. It made sense at the time.

20

A cartoon girl with long orange hair, wearing a red and white baseball cap with a diamond emblem, a white shirt with a red bow, and red roller skates. She is holding a pizza on a tray. In the background, there is a pink clipboard with a checklist and a pizza icon, and a spilled pizza on the floor with steam rising from it.

But I've been known to take—  
and make—some nasty spills!

## MINI SPIN

Move it!

You've gotta use cute little moves on my cute little games. For this game, do a mini spin to avoid getting beaned in the head with a ball.

# Jimmy T.

Jimmy T. is a cartoon character with a large, bright blue afro, white sunglasses, a large red nose, and a red jacket. He is holding a thick, braided rope with his right hand. The background is dark purple with white stars and stylized blue and white buildings.

## YO-YO!

Everyone got the fever? I've always got it! That's because the dance floor's hot! Got a text message from my man Wario. Said he was going to join us!

*Club  
Sugar*

I'm on fire tonight! Check out my killer moves. They're larger than life, just like my hair. Now, get out there and show me whatcha got!

## BIG TIPPER

Scrub!

You need big moves if you wanna rule this dance floor. Get the rhythm down to clear my stage!

# Ana

# Kat

Hi there! I'm Ana!  
Our class is on a field trip today.  
I've been looking forward to this  
for weeks!

I think I hear Kat calling me. I wonder  
what she found in that tree?

Don't touch that beehive!  
Oh, no! BEES!

Aaaugh! Run!

## TAP OUT

Wave!

Use **A** and your wits to clear these games! It sounds simple, but you'll need ninja-like reflexes to win our microgames!

**This just ain't right...**

**Hey, Spitz! Our cab's stalled. I know how to drive this thing, but I have no idea how to fix it. Can you get this? Do ya think you can fix it?**

# Dribble

**What? What do you mean, "a wrench and a jack"? What's a wrench? What's a jack? I'm useless!**

# STEER CLEAR

I have no idea how to put a new transmission in, but I know how to spin and press **A**.

TAXI

Spitz

A cartoon illustration of a mad scientist, Dr. Crygor, in a laboratory. He is a green, round character with a large head, wearing a white lab coat and a red tie. He is standing on a yellow platform, looking up at the ceiling with a mischievous expression. He is holding a green, cylindrical device with a red cord attached to it. The background is a yellow wall with two computer monitors and a desk. There are also some green and purple splatters on the wall and floor.

Muahahaha!

With my new invention, I can defy the very law of gravity itself!

I call it...THE GRAVITATOR!

With my command over the force of gravity, nothing can stop me! Why, I can even walk on the ceiling! In fact, I think I'll test my hypothesis with a little jig right now!

**Dr. Crygor**

What's that you say? If I alter gravity's pull, then we will all be (ahem) dancing on the ceiling? Good point. Would you like to become my assistant?

## GRAVITATOR

Drop!

All you have to do is tilt the GBA to change the direction of gravity. This should not be a difficult concept to grasp.

# Orbution

**Greetings.**  
Last week, as I was orbiting your planet, I came upon a giant black hole that nearly sucked me in. Trapped in its pull, I found that time itself began to slow for me...

**Hurtling through space is exhilarating.**

# TIME WARP

By Time Warp, I mean my microgames last longer than they should. Just play them and see. I don't know why humans have such trouble with rudimentary Einsteinian physics!

I'm seeing stars... Are they from the cosmos or just from spinning?

still the best!

**But I'm still the best!**

# 9-Volt

# 18-Volt

## SPINTENDO CLASSICS

With this crazy  
spin, the NES<sup>®</sup>  
games that we  
know and love  
are all new again!

Who lurks behind that purple mask? ★

When my normal superness just won't cut it, I put on my superhero outfit, and become...

Dun da-da DAAAAA!  
Wario-Man!

Check out my flying skillz!  
Oh, you don't have to envy me! Oh, no, wait, ENVY ME!

**Wario-Man**

# SPANDEX CHALLENGE

If you've come this far, you don't need my help! Just spin! Spin! SPIN!

That was a close call. I thought I was gonna bust a seam! Man, this suit's tight!

You're probably a  
spinning pro by  
now. Why don't  
you give this  
manual a spin, too?

**WHEEEEEEEE!  
SPIN FASTER!**

**WARIO'S EYES HAVE  
GONE ALL GOOGLY FROM  
ALL THE SPINNING!**

**Don't let the others  
know, but I'm  
gonna take off with  
all the profits!**

**Everyone else is still dizzy from  
spinning on the last page! WAA HA HA  
HA! Here's my chance to get away!**

**Oh, no! I'm dizzy, too!  
I'm dropping all the money  
I sto—I mean, earned.  
Waaaaaaah! Oh, I'm  
so dizzy...**

# TROUBLESHOOTING

## **There is a sound coming from the Game Pak.**

- When the Rumble Feature is activated during game play, a small motor inside the game can be heard. This is normal.

## **The Gyro Sensor doesn't seem to be working correctly.**

- When playing the game in a moving vehicle, the Gyro Sensor may not respond correctly, or will respond to the movements of the vehicle.
- Large changes in temperature may cause the Gyro Sensor to temporarily stop working.
- The Game Pak or hardware edge connector may be dirty.

## **There is no rumble.**

- Check to see if the Rumble Feature is turned off in the Options menu.
- The Game Pak or hardware edge connector may be dirty.

If your Game Pak still does not operate correctly after trying the above remedies, please visit the customer service area of our web site at [www.nintendo.com](http://www.nintendo.com) or call 1-800-255-3700.
